KENYA

Land of Mystery and Marvels!!!

HAPPY NEW YEAR,
ALL!!! Hope you've all
enjoyed a happy,
healthy, SAFE
celebration! With luck,
we'll all be leaving for
Kenya in just 300
days!!! Will you be
ready??? Will you be
taking photos like
these??? :->) There will
be sooo many

opportunities for photos!!! Don't forget your chargers and/or batteries!

Or will we find you enjoying the pools
instead? :->)

Whatever you decide, you'll
find it in Kenya!

Here are a few words you'll hear while we're on game drives ...

CHUI = Leopard, if we're lucky enough to see one! They spend most of the daylight hours up in trees.

KIFARU = Rhino. Hopefully we'll see both the White and Black Rhinos.

DUMA = Cheetah. What can I say? These guys are my favorite! :>)

TWIGA = Giraffe and we'll see plenty of them! - see the next page for photo!

PUNDAMILIA = Zebra. We should see herds of these guys ...

SIMBA = Seriously? You already know this one and we will see them, both male and female, as well as cubs.

While at the Giraffe Centre, we'll be able to feed these beauties as well as photograph them! You won't believe how **HUGE** they really are!!!

~~~

I've had a few inquiries about how safe it is to travel to Kenya with "THE VIRUS". Sooo, I contacted the President of UTg and this is her response:

*"We have had passengers traveling during the pandemic -- from about October 2020 to passengers who have just returned at the beginning of December. NO ONE has been sick, knock on wood. Everyone's Covid tests have been negative. People have commented on how safe they feel, etc."*

From everything I've heard, Kenya is taking every precaution to ensure their visitors are safe. If I didn't believe that, I wouldn't be going!!!

~

Oh, yes we'll also see about a gazillion Flamingoes! :>)

That's it for this week!!!

Kwa heri!
