# KENYA LAND OF MYSTERY AND MARVELS!

Another week has come and gone and we have only 271 days before we leave??? WOW!!!

As the sun comes up in the east, will you be with us for breakfast???  
Once we've had our fill, it's off to our vehicles for the first game drive of our safari! Since we'll be in Amboseli National Park, we're sure to encounter lots of elephants! Picture that against the background of the AMAZING Mount Kilimanjaro!!! Oh, did I mention the Zebra????

Amboseli is noted for its herds of elephants, but there are also zebra, giraffe, cheetah, lion, buffalo, a myriad of birds, and much, MUCH more!

This is an exciting time! If you don't have a passport, file for one NOW! The wait is expected to be several months! It's good for 10 years and must be valid for at least 90 days AFTER we leave Kenya.

This is an example of the vast savannah we'll be traveling through. There will be parts that are filled with grasses as tall as a man, and other parts, such as that above, that have trees and scrub. Roads here are virtually non-existent and you'll wonder how our guides know where they are or where to find the animals we're all there to see! They know this land as well as you know your own neighborhood and we'll all be VERY pleased by them and what they show us. That's one of the reasons we tip them at the end of our journey! :>) They'll show us things that are right in front of us, but that we wouldn't see without their guidance! Animals such as the tiny Dik-Diks: They're only about a foot high fully grown and virtually disappear in the brush!

... or the leopard asleep in a tree right over our heads. Yep! Kenya is truly the land of Mystery and Marvels all there for us to explore and discover!

Here's the first gate we'll go through. It signals the beginning of a wonderful adventure! ... and is the pre-lim of what's to come!!!

Keep your questions coming!!! Before you know it, the answers will be right in front of your eyes and we travel through the amazing country of Kenya!

...and do keep an eye out for the very personable Vervet Monkeys! They're everywhere! :>)

'til next week!!!

Kwa Heri!
