Only 237 days between today and our departure date 30 October 2022!!!

KENYA

Land of Mystery and Marvels!

Over the past few weeks, we've all been concerned about what's happening with Russia and Ukraine. We will not be anywhere near that airspace ... If it becomes unsafe to travel, UTg will cancel our tour. I may be crazy, but I'm NOT stupid!!! We will NOT be going if there is any chance we will be in danger, so rest easy and keep planning to join us on this amazing adventure!!! :>)

Here are a few tips for packing and such ... Pack your most important things in your carry-on: Medicines, chargers, pack your liquids and electronics on top so you won't have to search for them going through security. Think about a small power strip. Rather than plugging your phone or laptop into the USB ports in the airport, plug your power strip into an outlet and keep the data in your phone or laptop secure. It's also a good idea to charge your battery and bring a portable battery pack. Start

emptying your pockets before you reach security ... you won't have impatient folks behind you and it will speed up the process. Wear shoes with socks ...

remember you have to take your shoes off to go through!

Here's another example of the type of photo you can take. It's also proof that we'll never know what we'll come across! Our guide may stop the vehicle and we won't know why ... then

something will appear out of nowhere! We'd been driving along next to grass that's 4' high and not moving. We sat there wondering why . . .

suddenly 3 lionesses came out and crossed the road in front of us! You will constantly be amazed!

Even the Trees are
"interesting"!

Not to mention the Ant
Hills!

Wherever you turn, there's
something you won't see here at
home.

... and it's all beautiful!

<<< Please note the liquid
refreshment ...

Another week has passed and we're closer to departure ... will you be
with us??? :>)

Kwa heri!
