KENYA Land of Mystery and Marvels!!!

HAPPY FOURTH
OF JULY!!!!

Hope you're all celebrating and enjoying a happy, healthy, SAFE holiday!

Now back to business! :->) We have quite a few newcomers, so I will be repeating myself in the coming weeks!

Are you all looking forward to meeting the King and Queen of beasts? We will see them being regal and being silly! Regal as they stretch, yawn, and pose ... and silly as they play with their cubs! You'll all be amazed at how close we'll be to these beauties!!! Yes, we will be safe. :->)

Lest we forget the "Ellies"!!! These gentle giants may walk around our vehicles as if we weren't even there! We'll watch as they care for the little ones ... see how nicely they interact with each other and see them greet other herds they meet along the way!

Do bring extra film or chips so you don't miss a thing! The first time I went, I took over 1,000 still shots and 6 hours of video!!! There's just so much to see and experience you won't want to miss a thing! BUT don't forget to put the camera down and enjoy the sights! :>)

Ok, I have to repeat myself AGAIN about passports! Renewals are taking several months as are new applications, so make sure your passport is in proper order NOW!!!

It must be valid for at least 6 months AFTER leaving Kenya! For those of you who have never had a passport, they are valid for 10 years.

I've been asked to post the costs again. UTg has graciously lowered the number required to qualify as a group. Of course the more folks we have, the lower the price goes. ALL rooms are based on 2 people sharing twin accommodations. There are NO single rooms this time ... so here we are:

7-11 persons sharing twin = \$3,395.00 USD per person

12-17 persons sharing twin = \$3,295.00 USD per person

18-23 persons sharing twin = \$3,195.00 USD per person

These prices are subject to change in the event park entry or other government levies/taxes change. Do go to www.RevengeTrek.com to see all that's included!

Yep! That could be YOU feeding these sweet creatures! We'll be up close and real personal with them at the Giraffe Centre! They come running when they hear the sound of the food at this feeding station!

If any of you are still worried about Covid, let me put your minds to rest. Kenya realizes how much they depend on tourism ... AND they want their tourists to enjoy themselves and comeback again and again. They are following the strictest protocols you can imagine!!! So far NO ONE has come back sick, so rest assured none of us will either!

Any questions, be sure to send them to me at info@RevengeTrek.com !!!

'til next week, Jeanie
