# KENYA Land of Mystery and Marvels

Good morning, ALL!!! ... and welcome to another beautiful sunrise in Kenya!!! Every morning is beautiful and once you're awake, we'll all join together for an amazing breakfast!!! The off we go on our morning game drive!!!

I've been getting questions about the safety of going to Kenya ... both regarding physical safety and COVID safety. I've been assured we will

be both physically and COVID-ly SAFE!!! Kenya appreciates their tourist and have been exceptionally careful to insure we'll all be safe and have a wonderful, memorable adventure! The steps being taken at the resorts are second to none, so relax! We're there to enjoy, relax, see the animals, experience

the culture, and just have an all 'round good time!

I've also had a lot of folks asking me to again list some of the things they should NOT bring into the country. YES, I was serious about "camo" clothing. It's reserved for the military and I don't think any of you would want to debate that while we're visitors, guests, in Kenya! Also, NO plastic bottles ... bring a refillable water bottle ... you can re-fill it every day as well as at the airport before we leave (once through security, a bottle of water can cost a small fortune!). ... AND, NO plastic grocery bags! If you want to put your shoes, wet bathing suit, or anything else in a plastic bag, use a zip lock baggie! Again, we are visitors, guests, and we must obey these simple rules. These things are small "asks" of us ... and well worth it when you think about mysteries and marvels you're going to experience while in Kenya!!! :->)

I hope you've all "Googled" the hotels we'll be staying at! As mentioned before, the only change to our itinerary will be in Amboseli. We'll not be at Ol Tukai, but rather at the Amboseli Serena Safari Lodge. This is actually an upgrade so, Thank you, UTg!!! 😊

If my memory serves me correctly, I believe most of you have never been before, so do go back in and take a look! Also visit our website and re-read our itinerary!

Thanks to poaching and the encroachment of humans, we'll see animals that are endangered and those that may very well

become extinct by the next generation. Visit now before you will only see some of these amazing creatures in zoos or books.

**LET ONLY ELEPHANTS WEAR IVORY!!!**

That's it for this week! Keep your questions coming! ... and SMILE as you count down the days to our departure!!!

**Jeanie Matthies-Kurzrok**
