KENYA Land of Mystery and Marvels

We never know what we may see and this is a perfect example! With leopards, though, you may have to scan the trees since they usually spend their days sleeping up on a tree branch!

I've had a couple of questions regarding what "shots" are

required. Right now the only "shots" needed, is proof of your Covid vaccines ... so remember to have your certificate with you! We will have to take malaria pills, but that's just a precaution and should be discussed with your doctor. You usually begin those pills 2 weeks before departure, but I'll give you more info on that later.

Do you need more reasons to always have your camera or phone at the ready??? We're not at the zoo, folks! These guys roam around at will and we will have plenty of opportunities to see them all up close and personal ... all except those leopards! Trees! Remember? Trees! :>)

Another question I keep getting is about luggage. We are limited to one (1) suitcase and one (1) carry-on like a camera bag or backpack. Space is limited in our vehicles! Soft-sided luggage is preferred since it can be "molded" into the space we have. Hey! You don't need an entire wardrobe, everything, and I mean **everything**, is casual! Shorts and t-shirts during the day; a light jacket and maybe khakis at night; bathing suit, cover-up, and flip-flops for the pool. Sneakers or comfortable shoes for the game drives (No, we won't be trekking on foot, but there may be times we can get out of the vehicle and flip-flops will not cut it!!! Trust me!).

We'll meet up with these guys >>>>> everywhere we go! They are Vervet monkeys ... they are adorable little thieves! AND they will be found at every property we stay at! Do NOT leave your doors or tent flaps open or they WILL visit and probably take a souvenir!!! Same goes for having

tea or coffee outside ... do NOT leave anything unprotected or you may have to climb a tree to get it back! LOL!!! This is another "Trust Me" issue! LOL!!!

<<<< Too cute!!!

For those of you who'd like to take the Hot Air Balloon over the Massai Mara, here's a quick look at one being blown up ... notice the man inside, that will give you an idea of just how large these balloons are!!!

That's it for this week ... continue to enjoy the summer AND these newsletters! Any questions, shoot me an email at info@RevengeTrek.com

'til next time, Kwa Heri! Jeanie
