KENYA Land of Mystery and Marvels

WOW!!! It's December, the holidays are upon us, and another year is almost over! Time sure has flown!!! Will you be flying with us???

Here we have a "dazzle" of Zebra! A group of zebra can also be called a "zeal". These are Grevy's zebra. Kenya has two distinct species, Grevy's and Plains ... we should see both .. Grevy's have thinner stripes, white bellies, and bigger, rounded ears.

You can see the difference between the two ... here's a Plains Zebra >>>>>

Wider stripes that continue under the belly!

Now you know about zebras ... both as a Dazzle and a Zeal!! LOL!!!

How about some of the other "strange" references to large groups of African animals? You can have a Journey, Kaleidosope (I like that one), Kindergarten, Corps, or Tower of Giraffes (seems fitting); a Raft, Pool, or Bloat of Hippos (also fitting); and a Crash of Rhinos (again, well you get the idea!). Then there's a Troop, Congress, or Flange of Baboons; a Herd (too normal), Parade, or Crash (hummm, that sounds familiar) of Elephants! I'll close this with a Pack, Cackle, or Clan of Hyenas. Who thinks these things up???? ... and there are soooooo many more!!! :>)

Lions are easy! A Pride, Flock, Souse, Trooop, or Assault! ENOUGH!!! LOL!!!

Join us and see them all for yourself!

Kenya is an amazing country ... why not see it for yourself?!?!?

As we've said before, the world is changing! This may be your last chance to see these amazing creatures up close and personal! ... at least at this price!!! :>) UTg has been most gracious to extend our deposit date, but that can't be extended forever so let me know NOW that you'll be part of our group! :>) Don't leave the rest of us hanging!!! :>)

Enjoy the crisp weather ... okay, Joani, we know you're sweltering in Florida!!! LOL!!!

Keep smilin' and remember we're all off to an extraordinary adventure in June!
