KENYA

Land of Mystery and Marvels

Only 342 days to go!!!!

Another amazing sunset over Mt. Kilimanjaro! I should have used this photo last week!!! This is what we may see upon returning from our afternoon game drive in Amboseli National Park! :>)

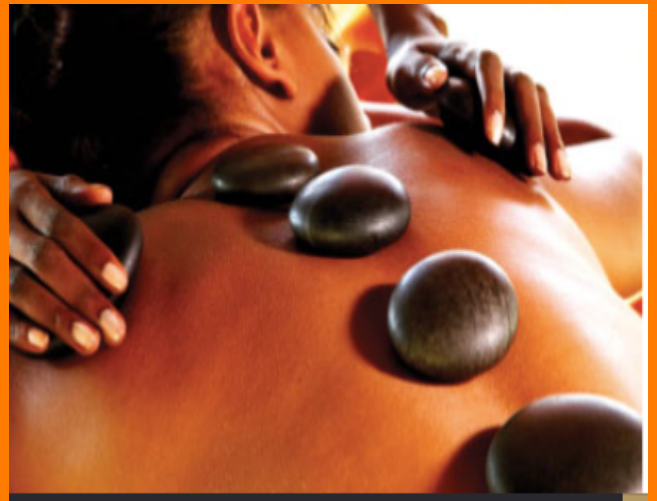

Ok, once we leave Amboseli, we'll head off to Sarova Lion Hill Game Lodge in Nakuru Lake National Park. Lake Naduru is home to about a gazillion flamingoes, as well as both the White and Black Rhino. Just in case you forgot the photos from way back when, here's a reminder of what to expect at the Lodge!

Here's an example of a standard room with private bath:

Lion Hill also has a fabulous spa! Feel free to book your appointments when we arrive, just remember those costs are NOT included in the cost of our Safari.

...if not, how about a dip in the pool???

... and Yes, the food is great! You will NOT be disappointed!!!

I had a question about smoking. By now we all know you can NOT smoke on an aircraft ... you can't even vape. Same goes for the vehicles we'll be traveling in. All the properties we stay at will have designated smoking areas. Please be respectful and adhere to those areas if you wish to smoke. Remember, we're all visitors, guests, in Kenya ... don't be ugly Americans!!! :>)

Here are a few more examples of Kenyan crafts.

Another thing to remember is Kenyans enjoy bargaining! Don't be rude, but a good "back and forth" is appreciated and can be fun!

We all know there's a great big world out there and these days it's getting smaller and smaller. Where would you like to go in 2023??? Send your suggestions!

`til next time, kwa heri! Jeanie
